SKILLS

Languages: Python, JavaScript, TypeScript, C++, C
Web Development: HTML, CSS, React, Next.js, Tailwind CSS, WordPress
Tools & Technologies: Git, GitHub, Node.js, SQL, REST APIs, Supabase, VS Code
Soft Skills: Leadership, Adaptability, Teamwork, Communication

PROJECTS

ExplainAI | TypeScript, JavaScript, AI APIs — Dec' 2025

- Developed an AI-powered educational platform that transforms user questions into structured, step-by-step visual explanations through a modular AI workflow, integrating intelligent content generation and automated reasoning.
- Architected a **6-component architecture** comprising Planner, Router, Search, Generator, Transcript and Renderer modules, enabling the system to process questions and generate organized educational video content.
- Designed the system architecture to support future enhancements such as improved AI-generated visuals and personalized learning experiences , seamless integration of advanced educational technologies.

CampusConnect (StudentConn) | Next.js, Tailwind CSS, Supabase — Jan' 2025

- Developed a student-focused marketplace platform concept for **buying and selling items, discovering services and connecting students** with campus-related opportunities, fostering a centralized digital ecosystem for transcations.
- Built the foundation and designed features for user **listings, service listings, rentals, user management and an admin dashboard,** establishing a scalable marketplace structure to support seamless user interactions.
- Integrated back-end database functionality using **Supabase including authentication, user roles, account management** and listing management to support secure user access and scalable platform for administration and users.

Kazilink – Local Marketplace | HTML, React, TypeScript — Jun' 2026

- Built a web-based marketplace for connecting users with **products, services, jobs, rentals** and local businesses, fostering community engagement , improving access to local opportunities and creating a centralized platform .
- Implemented authentication, user account, and listing management workflows to support interaction between users and marketplace participants establishing a structured platform foundation for secure access and efficient user engagement.

TRAINING

Internshala – Full Stack Development Intern — Nov' 2025 - Jan' 2026

- Developed and practiced full-stack web development using HTML, JavaScript, and Node.js , focusing on building responsive and functional web applications , implementing frontend interfaces, developing backend functionality.
- Worked on hands-on development tasks involving **APIs, and database integration** gaining practical experience in full-stack application development, debugging building responsive functional web applications and teamwork.

CERTIFICATES

DevOps to Cloud | *CipherSchools* — Aug' 2026
C++ | *Neo Browser* — Jun' 2025
Generative AI Essentials | *CipherSchools* — Apr' 2024

EXTRA-CURRICULLAR ACTIVITIES

Freelance — Managed client projects from requirements to delivery. — Dec' 2025 - Present
DTF Printing Startup — Founder, manage customers, pricing, production, and business operations. — Jul' 2025

EDUCATION

Lovely Professional University — Phagwara, Punjab, India
Bachelor of Technology in Computer Science and Engineering — Jun' 2024 – Present
CGPA: 7.0
